## Tallinn- The European Green Capital 2023

[www.visittallinn.ee](http://www.visittallinn.ee)

Estonia's capital is famous for its picture-perfect Old Town, listed as a UNESCO World Heritage site for being one of the best-preserved medieval city centres in Europe. Away from the old Town's cobblestone streets, the city of Tallinn has a modern feel, with off-beat architecture and a vibrant cultural life. The newly reclaimed industrial areas are locals' favourite places to hang out with numerous design shops, art galleries, bohemian cafés, cosy restaurants and micro-breweries to choose from. This magnificent city of 450,000 inhabitants is homey and compact with most sights, hotels, venues, and restaurants all within walking distance. The seaside city has a strong focus on sustainable development and in 2023 holds the title of the „European Green Capital 2023“.
